Destination country / port

--

Quantity *

Fuel type / power supply

Emission / certification requirements, if required

Mast type / lowered-height limit (mm) *

Emission or certification requirements depend on the destination. Final configuration and technical data are to be confirmed in the quotation.

Every forklift receives a pre-delivery inspection (PDI) before shipment. PDI follows factory quality standards and includes checks against the order and functional performance. Only equipment that passes inspection is shipped.

This checklist does not constitute a binding quotation.
